## T. W. ROBINSON'S. I. M. CHALMERS.

**"THE LEWIS MAGNETIC CORSET"**  
IS SUPERIOR TO ALL OTHERS.

It is mechanically constructed upon scientific principles, symmetrical in shape and  
unique in design.

Each section of the corset is so formed as to maintain the vertical lines of the body,  
and readily conforms to the figure of the wearer.

It is stayed with strips of highly tempered spring ribbon steel, which is  
superior to any other boning material owing to its flexibility, smoothness and  
durability.

Each steel (or stay) is nickel-plated, highly polished and guaranteed not  
to corrode, metal tipped to prevent the ends from cutting through the fabric,  
and electro magnetized, thereby transmuting a mild galvanic current through-  
out the body, strengthening the nerves, assisting the action of the heart and impart-  
ing additional vigor and energy to both body and mind.

The steel (or stays) are incased in separate pockets and  
can be removed or replaced at pleasure through the openings  
near the top of the corset, and are so distributed as to afford  
the necessary support to the spine, chest and abdomen, while  
at the same time so pliable that they yield readily to every  
movement of the body, thus assuring constant comfort to the  
wearer.

These corsets are made by experienced operators, from  
superior fabric, carefully examined by experts, and guaranteed  
not to break or roll up like inferior makes.

Ladies who, after giving them a fair trial, should not feel perfectly satisfied, can re-  
turn them to the merchant from whom they were purchased and have their money re-  
funded.

See that the name "Lewis' Magnetic Corset" is stamped on each pair, without which  
none are genuine.

Manufactured only by the CROMPTON CORSET CO.,  
78 York Street, Toronto, Ontario.

### THE GLOBE WRITE-UP.

The Saturday Globe of the 10th  
inst., containing an alleged illustrated  
write-up of the District of Moose Jaw,  
is to hand. A more glaring abomi-  
nation was certainly never perpetrated  
upon a community.

In the first place, the article is placed  
on an inside page; the front page being  
occupied with a description of the  
Queens' Birthday celebration at Vic-  
toria, B. C.

The cuts are execrable. Were it  
not that the names of the owners of  
blocks, farms, etc., are printed under-  
neath, many would not recognize them.  
All the houses are wedge-shaped. The  
cut of the river would give one the im-  
pression that the water above the dam  
was lying in a large reservoir, of which  
the "railway bridge" formed the sluice  
gates. It looks as much like a bridge  
as a sod-shanty looks like a brick house.  
Most of the buildings are out of  
perspective and look as if they were  
falling down. General disgust is ex-  
pressed by the indignant owners.

The illustrations have, however, two  
good features. The catch-as-catch-can  
wrestle between Joe Palmer and Bert  
Tapley in front of the school is very  
fine, and the easy chair in the top right  
hand corner of the page is also very  
fine.

The town council have not received  
anything even approaching fair treat-  
ment in the matter of the write-up.  
It is made up entirely from the en-  
velope which has recently been gotten  
up to advertise the town, and from an  
article that has recently appeared in  
the TIMES. Regarding this latter it  
is necessary to add a word of explana-  
tion. Some days previous to the pub-  
lication of the article a letter was re-  
ceived from the Northwest Government  
asking for quotations for one thousand  
copies of the TIMES each week during  
five weeks, on the understanding that  
these issues should contain articles on  
the capabilities and resources of the  
district. These papers were to be cir-  
culated throughout the east. Accord-  
ingly, the article in question, which was  
intended as the first of a series, was  
prepared, when the government notified  
the various newspapers throughout  
the Territories that they had decided  
to order only fifty copies. The plan  
of an elaborate series was consequent-  
ly abandoned, after the publication  
of the first article; and the remaining  
four issues contained matter that was  
prepared with little loss of time. For  
the five weeks' issues the TIMES received  
the sum of \$12.50. The sections and  
paste compilation which appears in  
the Globe would not occupy the time  
of a school boy for ten minutes.

### Council of Public Instruction.

Regina, N. W. T. June 10.—The  
first meeting of the executive com-  
mittee of the Legislative Assembly  
took place on Thursday when all the  
members were present, namely Messrs.  
F. W. G. Haultain, chairman; Thos.  
Tweed, Medicine Hat; J. R. Neff,  
Moosomin; Hilyard Mitchell, Duck  
Lake. The most important item of  
business was the appointment of four  
members to the council of public in-  
struction. This body was created at  
the last session of the Assembly by the  
new school ordinance and took the  
place of the old board of education. It  
consists of eight members, four of  
whom shall be the members for the  
time being composing the executive  
committee of the Territories, and four  
other persons, two of whom shall be  
Protestants and two Roman Catholics.  
These last four are only an advisory  
board, as they have no votes. The  
gentleman appointed by the committee  
are as follows: His Lordship, the  
Bishop of Calgary and Saskatchewan,  
chairman of the late board of educa-  
tion; Rev. Father Caron, of Regina;  
Mr. A. E. Forget, assistant Indian  
commissioner, and Mr. A. H. Smith,  
B. A., principal of the Moosomin high  
and public schools. The question of

the time of calling the next session of  
the assembly was discussed and, though  
nothing definite is stated, it is pretty  
certain that a session will be held very  
soon after the new lieutenant-governor  
is appointed.

### SWIFT CURRENT ITEMS.

**SWIFT CURRENT**, June 13.—The ice  
cream social held in the Presbyterian  
Church on Wednesday turned out  
quite a success both financially and  
otherwise. The programme consisting  
of instrumental and vocal music and re-  
citations was well rendered, the Sun-  
day school children taking a prominent  
part. Altogether a very enjoyable  
evening was spent. The proceeds  
amounting to \$21.50 go towards paint-  
ing the Presbyterian Church.

The annual Sunday school picnic  
will be held on the 1st July. Foot-  
racing, jumping and other athletic  
sports will be the order of the day.

During a very severe thunder storm  
here to-day Mr. Budd Fenton and his  
eldest sister had a narrow escape from  
death. While at their farm house  
about a mile from town the house was  
struck, the lightning coming down the  
chimney into the room they were in.  
The inside walls were torn to  
matchwood and the inside of the house  
generally demolished. Both received  
severe stunning but otherwise were un-  
hurt.

### Grand Orange Lodge.

**WOLSELEY**, June 10.—A meeting of  
delegates from the various Territorial  
Orange lodges was held here on Friday  
for the purpose of forming a Territorial  
Grand Lodge. After a very enthus-  
iastic meeting the following Grand offi-  
cers were elected:

R. W. Grandmaster, A. G. Hamil-  
ton, Wolseley; Deputy Grandmaster,  
Andrew Martin, Regina; Associate  
Deputy Grandmaster, J. Armstrong,  
Medicine Hat; Grand Secy., W. J.  
Kernaghan, Prince Albert; Grand  
Lecturer Thos. Fleming, Summer-  
berry; Grand Chaplain, Bro. S. Gray,  
Regina; Grand Treasurer, Thos. Moore  
Dongola; Deputy Grand Treas., T. E.  
McWilliams, Moose Jaw.

The lodges at Moose Jaw, Caron and  
Pasqua were formed into a County  
Lodge and Bro. McWilliams of Moose  
Jaw was delegated with authority to  
call a meeting of the County Lodge  
and proceed with the election of a  
county W. M. and other officers.

### BOHARN JOTTINGS.

On Wednesday last, a picnic was  
held at Mr. James Porter's residence  
and quite an enjoyable time was spent  
by all.

The Boharn quartette held forth on  
Sunday last but the leader's tuning  
fork was electrified and would not hum.

The showers of the past week have  
helped the grain wonderfully.

Mr. Gregory was unable to take his  
appointment at Pioneer on Sunday  
evening. A friend took his place.

When will Boharn have a new post  
office?

We think another general store  
would do well here.

**RAMBLER**  
Boharn, June 12, 1893.

### New Lieutenant-Governor.

**WINNIPEG**, June 13.—The Mose-  
min Spectator states on "the best au-  
thority" that Mr. C. H. Mackintosh, M. P.,  
will be the new lieutenant-governor of  
the N. W. T., and Mr. A. W. Ross, M.  
P., lieutenant-governor for Manitoba.  
The Spectator states further that it is  
informed on the highest authority that  
these two gentlemen will be sworn in  
and take office immediately on the ex-  
piration of the terms of Governors Royal  
and Schultz.

### THE CHURCH CASE

**Is Finally Decided—The Appeal  
Dismissed With  
Costs.**

**REGINA**, June 12.—The celebrated  
church case was finally decided to-day.  
After arguments before the full court  
the appeal was dismissed with costs to  
Messrs. Potter & McLean.

Last fall an action was brought by  
Hugh McDougall against Daniel Mc-  
Lean and A. E. Potter, as chairman  
and secretary respectively of the Board  
of Management of the Presbyterian  
Church at Moose Jaw, on an instru-  
ment purporting to be a bill of ex-  
change for \$617.85 drawn by James  
Brass upon the Board and accepted by  
McLean & Potter.

The trial took place at the court  
held in Moose Jaw in October 1892,  
before Mr. Justice Richardson. The  
defendants disputed the claim on the  
ground that the Manse was unfinished  
and they withheld a portion of the  
money paid into court, and disputed  
the balance. After hearing a portion  
of the evidence, the question of dam-  
ages was referred to Messrs. Henderson  
and McDonald, architects and building  
experts. They viewed the structure  
and gave evidence under oath as fol-  
lows: McDonald estimated the  
amount to finish the building at \$80;  
Henderson at \$10. The learned  
judge subsequently delivered judg-  
ment allowing McDougall his claim  
less \$80 and costs as stated in the  
judgment.

Against this decision McLean and  
Potter appealed to the full court held  
at Regina on Thursday last. The  
judges allowed the case to be inscribed  
on the court list subject to any  
objections that might be taken. The  
case was fully argued and the appeal  
of the defendants was dismissed with  
costs to be paid by them.

### Local Items.

Mr. J. H. Holman, who has been a  
constant traveller over the Canadian  
Pacific for many years in the capacity  
of commercial traveller, will shortly  
sever his connections with his present  
employers, Messrs. Bateman & Co. and  
will assume the management of Mrs.  
Doig's new hotel at Regina.

Mr. H. C. Sweet, who was last sum-  
mer in charge of a mission station near  
Moose Jaw, secured a scholarship of  
\$120 at the recent university exams.  
held in Winnipeg. Mr. Sweet stood  
second in the totals for the Mental and  
Moral Science course. We notice the  
name of Mr. W. T. Barrett, of Moose  
Jaw, among those who passed the  
medical entrance.

An important sale of horses will be  
held on Wednesday, June 21st, 1893,  
at Gillespie's repository Regina. When  
a number of high class horses by such  
celebrated sires as Ashwood, Nero and  
Union Jack, comprising brood mares,  
one, two and three year old fillies,  
drivers, saddle and general purpose  
horses, the property of Mr. N. F. Davis  
M. P., and J. A. Whitmore, Esq., will  
be sold.

Court Assiniboia, No. 8081, of the  
Ancient Order of Foresters was or-  
ganized in Moose Jaw, on Monday  
evening by Mr. A. J. Stevens, D. C.  
R., of Brandon, Ont., assisted by  
several members located here. The officers  
are as follows:—P. C. R., A. McDonald;  
C. R., G. B. Wallace; S. C. R., N. Mc-  
Lellan; Treasurer, Geo. Barber, Secre-  
tary, C. A. W. Stuart; S. Secretary, C.  
W. Roberts; S. W., H. Moquette; J. W.,  
A. V. Richards; S. B., W. G. Wilson;  
J. B., Thos. Campbell and Trustees,  
Messrs. A. B. Turnbull, M. D., Jas.  
Armstrong and C. Empey. Twenty-  
five members were initiated and others  
will join to-night.

# MY STUDIES IN AMERICA.

BY KOTAI MASUDA, D. M. D.

(Continued From Last Week.)

Mr. Torrey and Mr. Motora both said it was the best plan for me to go back to Japan the next day by the help of the Japanese government. Oh, how sad my heart was that night!

If I must return to my native land it is better to go to the unseen world for shame and sorrow would be at hand. And "death" to me now is the only word.

I said to Mr. Torrey: "If I must go back to Japan, I would rather die! I came here in the hope of getting knowledge, wealth and fame. Now I am in bad repute, and my good character is injured. Oh, how can I go back without getting the knowledge for which I came? It would make me so ashamed!"

Then Mr. Torrey kindly said that he would keep me with him till my money came. He took me to the office of Dr. Nichols (C. F. Nichols, M. D.), and introduced me to him, for he is very much interested in Japanese art. Dr. Nichols asked me several questions, but I could not speak much English. I told him I had studied German for a few years, and he talked with me partly in German and partly in English.

Mr. Torrey told him that I could paint pictures in the Japanese style. Dr. Nichols asked me to paint him a picture, and so I painted for him about a month. He was interested in me, and hoped to teach me English; and he offered me fifty dollars for my unutilized paintings. He told his wife that my paintings were not worth anything but he was so sorry for my life's bitter misfortune! How I thought of him then—the kindest man on the face of the earth to the poor foreign boy! He gave me courage and the hope of seeing bright flowers and a good harvest in the future.

At last the money from my father came. Then Mr. Torrey and Mr. Motora took me to the Mt. Hermon School at Northfield, Mass., built by charitable Christian people to give an education to poor young men. Mr. D. L. Moody is the president. There I was taught the English language, the Scriptures, mathematics, and the sciences. I worked one-half the day and studied the other half, for every boy in the school must work half of each day, either indoors or outdoors. I was there for about two years. I had much experience to show that even the Christian believers are narrow and one-sided, for I am a foreigner and have had a taste of several religious teachings.

I often disobeyed the rules and the teachers, and I wrote an essay on education, which was against the school rules, all of which made the teachers angry so that they expelled me from the school.

While I was at Northfield I studied many things, but the lessons I learned from nature were the most important ones. All around is a most charming panorama of the Creator's wonderful gifts. In the summer and autumn everything is delightful to the sense of sight. When the winter is past, the voice of spring opens the sweet lips of the flowers, to laugh and mantle the sunny meadows of mid summer, as the stars shine on the earth, to banish the shadows from mortal human eyes.

God bringeth smiles to the face of nature, And joy to the heart of each living creature. Every bird, and tree, and flower, Awakes anew to life and power. After winter's death they live again, And life is recalled to hill and plain.

The school house at Northfield was built on the top of a green hill, and there are several cottages overlooking the silver stream of the Connecticut river, flowing between its shadowy banks and the stony hills and wooded valleys. When glorious autumn comes the numberless maple trees are painted in charming colors, absorbing magic tints from the morning and the setting sun—green, yellow, red, and gold, woven as if by a shuttle of skillful hands. In the winter it is so cold and wet, with sharp wind and frosty air! But all the boys are happy and joyous for then they can skate, and slide from

the hilltop down to the bank of the Connecticut river.

The churches we attended were three miles either way, whether at Northfield or Gill Village. Most of the boys went to church in the wagons, but many times I used to walk. It was delightful in summer, but in the winter I went in the snow. My shoes were worn, and my stockings full of holes, so that the melting snow would get into my broken shoes and wet my cold toes. Many times have I mended my broken shoes with twine.

(Continued Next Week.)

## THE TOWN FATHERS.

### The Regular Council Meeting—Consideration of the \$5000 By-law.

The regular meeting of the Town Council was held in the clerk's office on the 5th inst.

Present: Mayor Grayson; councillors Hannah, Fysh, Neeland and Simington.

After reading of minutes the following accounts were ordered to be paid: T. W. Robinson \$ 1.00 J. E. Annable, for assessing 60.00 Wilson & McDonald 2.00 Postmaster, for stamps 4.25

Fysh—Hannah—The clerk inform the officers of the S. Army that the lease is strictly in accordance with the bargain originally made, viz: on a yearly tenancy. And that the council does not feel bound to submit to any changes Herbert H. Booth or any other man may choose to make.—Carried.

Councillor Neeland then introduced a By-law to raise by debentures \$5000 for public improvements in the town.

Neeland—Simington—That clerk procure copies of the Municipal Ordinances and amendments thereto for the use of the members on the council.—Carried.

Fysh—Hannah—That the Inspector notify contractor in charge of Robinson's building on High St. that the sidewalk removed to pass building must be replaced at once.—Carried.

Hannah—Neeland—That the clerk ask the solicitor to notify all parties obstructing or blocking lanes that unless the same are opened within one week from date they will be prosecuted without further notice. Carried.

Fysh—Simington—That the council sit as a court of revision to consider appeals against the assessment on Monday evening of June 26th at 8 o'clock p. m. And that the clerk advertise the same. Carried.

By-law No. 116, to raise the sum of \$5000 by debentures was read a first and second time, after which the council went into committee of the whole to consider the By-law. The committee of the whole reported that the By-law had passed without amendment.

Hannah—Simington—That the council believing it would be of advantage to have the point of intersection of the Soo with the main line called the Moose Jaw Junction. We would respectfully submit the above request if the matter is not already arranged. That the clerk forward a copy of this resolution to Mr. C. W. Milestone, Asst. Supt. Carried.

Simington—Fysh—That the council take into consideration the advisability of taking some steps to assist the bane in reorganizing at once. The council then adjourned.

### Destroyed by Fire and again at Work.

The Price Baking Powder Company of Chicago, which is known throughout the country for the superior excellence of its Baking Powder, met with a serious loss on the morning of May 18th, in the nearly total destruction by fire of its factory and offices. No sooner had the flames been subdued than the work of restoration commenced, and the Company by prudent foresight, having had stored in outside warehouses duplicate machinery, labels and supplies of raw material in preparation for any emergency was enabled by energetic management to resume manufacturing within a very few days after the fire, thereby causing its customers but a trifling delay in the filling of their orders. Had the company not been so prepared the delay

would have required months of time to get new machinery.

It is now forty years since the goods manufactured by this company were first placed on the market, to Dr. Price being due the distinction of having prepared the first can of Cream of Tartar Baking Powder ever manufactured in any country. It was a great discovery, superseding as it did the old method of using cream of tartar and soda separately, to say nothing of saleratus, with which the biscuit of early days was embittered.

The Price Company has no connection whatever with any other baking powder company or other manufacturer, notwithstanding representation to the contrary made by other manufacturers whose sole aim is to deceive the public and borrow the good name and fame acquired by the Price Cream Baking Powder, which is known all over the world as the purest and "most perfect made." (Adv.)

## BY-LAW

NO. —

Of the Town of Moose Jaw,

N. W. T., to Raise by

Way of Loan the

Sum of

\$5000.00.

WHEREAS it is necessary and expedient to raise by way of loan the sum of \$5000.00 for the purpose of constructing sidewalks, stone crossings, culverts and drains within the limits of the Town of Moose Jaw in the North-West Territories of Canada;

And whereas the value of the rateable property of the said town according to the last revised assessment roll is \$289,535.75;

And whereas it is deemed expedient that the said loan shall be for the period of fifteen years, that it shall be payable in fifteen equal consecutive annual instalments, and shall bear interest at the rate of five per centum per annum payable half-yearly;

And whereas in order to discharge the several instalments of principal and interest accruing due on said debt as the several instalments and interest become respectively due according to the terms of this By-law, it will require an annual rate, in addition to all other rates levied by said Municipality, of two mills in the dollar in each year of the said loan;

And whereas there is now a debt of \$7000.00 on the Municipality of the Town of Moose Jaw, contracted on the eighth day of October 1901 and payable on the eighth day of October 1911 together with interest thereon at the rate of six per centum per annum on which all payments to date have been made;

Therefore the Council of the Corporation of the Municipality of the Town of Moose Jaw aforesaid enacts as follows:—

1. This By-law shall take effect on and after the twentieth day of July A. D. 1893.

2. That there shall be levied and raised an annual rate in addition to all other rates, on the whole rateable property of the said Town of Moose Jaw, sufficient to discharge the several instalments of principal and interest respectively fall due together with the interest on the principal, that is to say, in the year

1893 the sum of \$323.33 1/2 of the sum of \$106.67
